Course Content Implementation Guide

Welcome to Social Success in Schools!

This professional development program will support your mission to implement school-wide SEL with integrity, efficacy, and sustainability. This *Course Content Implementation Guide* can help your school customize this training to best fit your unique needs.

Keep in mind,
no two schools are
the same, so feel free
to adapt this guide
as needed.

Social Success in Schools[®]
REAFFIRM. REASSESS. REINVENT.

STEP 1

Kick Off Your SEL Initiative

(Plan an SEL-focused faculty meeting or professional development training.)

Once you've received your Welcome Kit and hard copies of the *School Edition Guidebooks*, you'll want to kick off your SEL initiative with a full-staff event. We recommend:

- Distributing guidebooks
- Viewing the Welcome Message and Module 1, Lessons 1–3 training videos
- Providing portal login info

Time needed to complete: 75 min

This is a chance to get your entire staff on board with your SEL initiative.

STEP 2

Form Your SEL Committee

An SEL committee is invaluable to beginning, evolving, and sustaining full SEL implementation in your school. Your committee should be a well-rounded representation of all your stakeholders and not limited to the few typical decision makers. Commit to meeting on a regular basis. For more information, review *Module 1: Lesson 4, Leaders Who Lead in SEL*.

STEP 3

Determine What Areas to Reinvent

After your staff completes the Kahoot poll in *Module 2: Lesson 2, School Culture & Climate Assessment*, you will have a list of areas identified as needing improvement. The following chart pairs each Kahoot question with its corresponding training and estimated time commitment. Use it to select which trainings will best meet your school's needs. In step 4, you'll map out how best to train staff in the identified areas.

Time to Reaffirm. Reassess. Reinvent.

STEP 5

Choose an Evidence-Based SEL Curriculum and Assessment Tool

Once your staff training is underway, your school should decide which evidence-based practices will best monitor and sustain your SEL efforts.

- Adopting an evidence-based program will help sustain your mission to infuse SEL into your school's culture and climate.
- In step 3, your school took the time to informally assess their school culture and climate. This helped them make a plan moving forward on how best to connect your areas of needed improvement with the lessons included in this training. Moving forward, you may also want to invest in a standardized evidence-based assessment tool to more deeply assess your school culture and climate. This can help monitor how safe, supportive, and engaging your school is. As well, invest in a tool to assess the social-emotional growth of your students to help influence how your school will continue to shape these skills moving forward. Be sure to view *Module 1: Lesson 4—Data & Assessment* to inform your decision.

Casel.org is a great resource when deciding which curriculum best fits your school's needs.

STEP 6

Enlisting the School Community

Determine when and how to include your greater school community in your SEL mission. You are more powerful collectively than in isolation.

Decide which of the following options best fits your school's individual needs.

- **OPTION 1:** Conduct an in-person training at your school using the *Home Edition Guidebook*. The School Community Training Invitation can be found in the portal.
- **OPTION 2:** Send home or email the Social Success in Schools Home Letter and include the home login details.

STEP 7

Continue to Reaffirm. Reassess. Reinvent

Remember, this is an ever-evolving process that, like a garden, requires daily cultivation and nurturing. Be sure to train incoming staff each year so your mission to educate the whole child continues to flourish.

BE KIND. BE RESPECTFUL. BE RESPONSIBLE.
